

**Report of the Boat Slip Management Committee re: March 7, 2010 Slip Auction**

To The Board:

A boat slip auction was held following the March 7 Board meeting. Two bidders competed for slip # 13, which had previously been assigned to Lot 67 but became available when the lot was sold. The owner of Lot 11 outbid the owner of Lot 67, bidding \$650, and was assigned the slip. The slip that had been assigned to that lot, slip # 6, is a Category III. Under the rules, that slip was reassigned to Lot 67.

The owner of Lot 67 chose not to bid on any of the other five slips that were available at the auction but will wait to see what additional slips open up in the future as a result of sales of lots.

Unless a property owner requests an auction, the Boat Slip Management Committee does not intend to schedule one at the April 11 meeting.
